

Improving family and
community care through
highly specialized nurses

ENhANCE Final Events | 6th and 20th May

Family & Community Nurse – meeting the needs of end users

The ENhANCE project www.enhance-fcn.eu aimed to design and deliver a European Curriculum for Family and Community Nurse (FCN). Community-and home-based care delivered by FCN can be considered an efficient investment in primary care and in improving public health and patient outcomes. FCN deliver safe, quality and person-centred care directly in the community, supporting the individual needs of families.

Date and time of webinar Day 1: Thursday 6 May 2021, 09:30-11:40 hrs (CET) Brussels time

This webinar will present the role and profile of the Family and Community Nurse, perspectives and experiences with FCN in different European regions and settings. The educational institutes who piloted the European FCN Curriculum will demonstrate how it could be adapted to their specific local contexts and needs. The ENhANCE FCN European Curriculum was piloted at the University of Genoa, (UNIGE); the University of Eastern Finland (UEF) and the University of Thessaly (UTH). The webinar welcomes the feedback and participation of a broad audience and to raise awareness for the FCN profile and the project outcomes.

AGENDA, 6th May 2021
